

QUARTZ PALLET TRUCK IN PAINTED STEEL

OA-300

Quartz pallet truck in painted steel

This quartz pallet truck is often used in department stores between shelves when filling goods in the store.

This small pallet truck is specially made for department stores that use display pallets.

The pallet truck is stable and easy to maneuver.

The pallet truck is made from high-strength, coated steel. Bolts, shafts, screws, nuts, and hollow roll pins are made from POM (acetal), brass and steel.
