Rechargeable Battery:	6V/4Ah
Driftstimer:	Adjusted frequency
Charger:	230 VAC
Recharge Time:	4 Hours
Display:	LCD display
Indicator:	IP 65
Load cells:	IP 67
Weight:	80 kg.

Get the goods weighed on pallets wherever you want. This pallet truck is equipped with 4 built-in weighing cells, which makes the weighing very accurate.

The weight function is an additional feature of the pallet truck, but does not limit the normal use of the truck.

The pallet truck with weight can be used for whole and half pallets as well as for quarter pallets. All components are of the highest quality.

The pallet truck has an accurate weighing result with 4 built-in weighing cells.

The weight accuracy is 0.1% due to a highly developed mechanical construction and the high quality of electronics.

The indicator shows the gross and net weight. Features such as multi-range, piece count and RS232 output are standard features.

A painted pallet truck with weight has the same standard fork dimensions as a standard pallet truck without weight.

Options

- Build in printer
- Up to 6 load cells
- Capacity up to 2000 kg.
- The pallet truck with weight is available in lacquered steel, semi-
