This trolley for fishboxes is made of stainless steel specially for the fish and food industry where stringent requirements must be met for hygiene, the environment and thorough cleaning.

In high aggressive environments we recommend that the product is made of acid-proof stainless steel.

This pallet truck is made of stainless steel. The pump cylinder is made of bronze. The nuts are made of POM. Bolts, shafts, screws, nuts and hollow roll pins are in stainless steel. Easily replaceable last reel assembly.

The pallet truck has a reliable closed hydraulic system with automatic neutral position valve. The polished pistons and cylinders ensure a long and reliable service life. The automatic neutral position makes that when the tongue moves slowly lift the vehicle can not. The draw bar is moved more quickly lifts the carriage normally.

The stainless pallet truck is specially made for the fish and food industry.
