## **We can provide two different Highlifters with a capacity of 1000 kg :**

The manual promises ' Quick ' lift function.

The electric high lifter is a good solution requiring many lifts during the working day.

On both models lowering the cargo is done from the handle, either slowly or quickly, since lowering valve provides an infinitely variable lowering speed. Stainless highlifter , the chassis, drawbar , shafts , pins, pistons and screws made of stainless steel. Lift cylinder , sakseben and battery case is also made of stainless steel.

Stainless highlifter prepared especially for fishing, butchery - and pharmaceutical industries, places with high requirements for hygiene , environment and thorough cleaning.
