This high lifting pallet truck with photocell is ideal for handling goods on pallets. The photocell gives a smooth and controlled movement as the highlifter lowers and raises automatically when goods are loaded or unloaded.

Function Description :

On the side of the highlifter, you will find a control box containing a photocell and control module. The box can be set to the desired height. By selecting "Auto Up" or "Auto Down" the highlifter will automatically sets the desired height. As an extra safety, an emergency button is included. When turning "Auto OFF" the highlifter can be used as a regular highlifter.

Max lifting height with standard lift is 800 mm.

Max lifting height by photocell is 780 mm.
