

A dark, industrial background featuring a reel trolley in stainless steel. The trolley is a complex mechanical structure with multiple rollers and a frame, designed for moving heavy coils of material. It is positioned in a factory setting, with various industrial components and structures visible in the background. The lighting is dramatic, highlighting the metallic surfaces of the trolley.

# REEL TROLLEY IN STAINLESS STEEL

OA 1100

# Reel trolley in stainless steel

This stainless reel trolley is developed especially for the lifting and handling of Barrels used in the food and pharmaceutical industries where severe hygienic requirements must be met for surfaces that come into direct contact with the goods being handled, e.g. meat, fish or medicine.

## PRODUCT DETAILS

- Load capacity: 650 kg
- Steering wheel and load roller: Nylon
- Width outside: 1010 mm
- Total length: 870 mm
- Total height: 1415 mm
- Made in Denmark

## HYGIENE

- Stainless steel – the risk of bacterial invasion is minimised
- Developed for environments with severe hygienic requirements
- Easy to clean
- Few hiding places for bacteria

## ERGONOMICS

- The ergonomic handle makes it easy to manoeuvre
- The lift function makes it easy to lift the barrel from the pallet
- Designed with user safety and ergonomic working conditions in focus
